Revenue
Cáin agus Custaim na hÉireann
Irish Tax and Customs

Introduction

The Tánaiste and Minister for Finance, Simon Harris, has announced that the Government will develop a new Individual Investment Account and it will be legislated for in the Finance (No. 2) Bill 2026.

Subject to the legislation being enacted, the account will open on 1 July 2027.

It is acknowledged that the introduction of an Individual Investment Account will require infrastructure development by those operating the accounts.

Designated email address: investmentaccounttechnicalgroup@revenue.ie

Purpose of Forum

Revenue
Cáin agus Custaim na hÉireann
Irish Tax and Customs

The Forum will focus on the technical aspects of the required engagement between Providers and Revenue as will be set out in legislation, including

- secure end to end communication set up
- account opening
- eligibility validation
- account lifecycle processes,
- pay-and-file obligations
- approach to testing

The Forum will not be a policy forum and will not consider or advise on policy matters.

Estimated Timeline

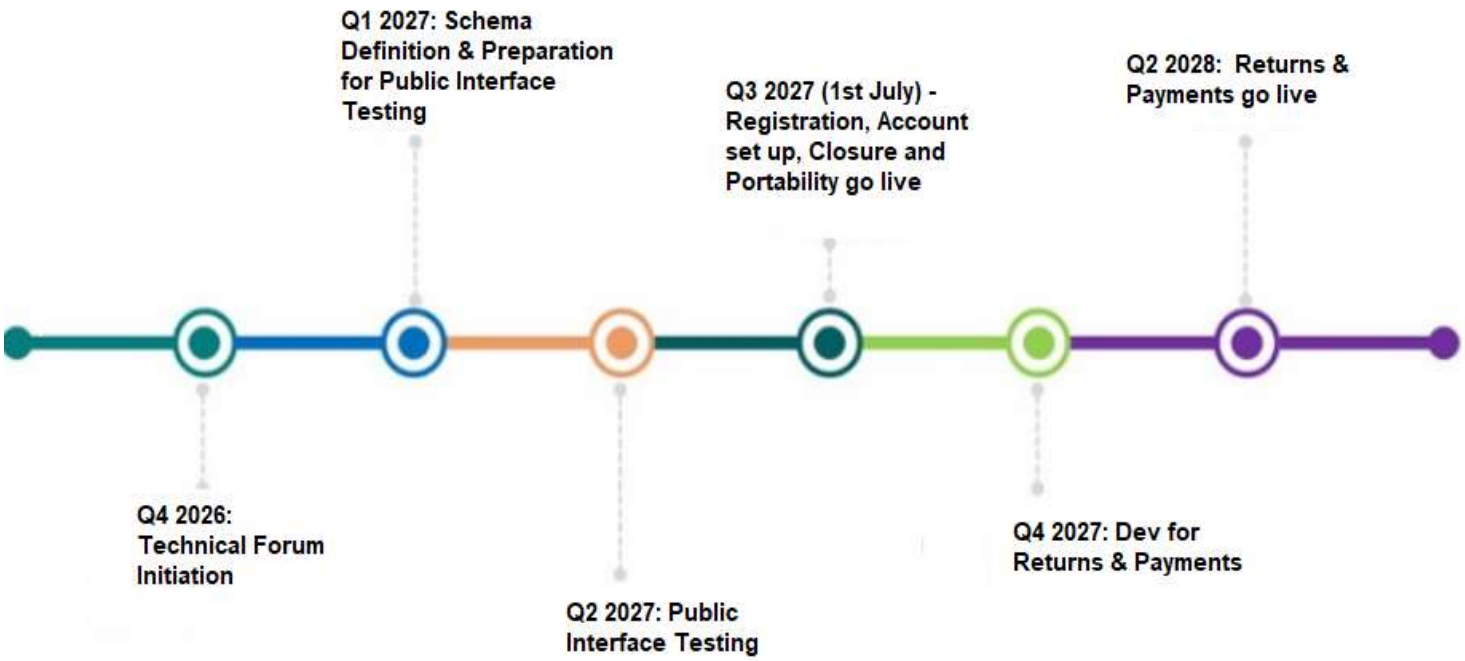

Revenue

Irish Tax and Customs

The Minister has announced that, subject to legislation being enacted, the Individual Investment Account will open on 1.7.2027.

It is envisaged that Revenue will

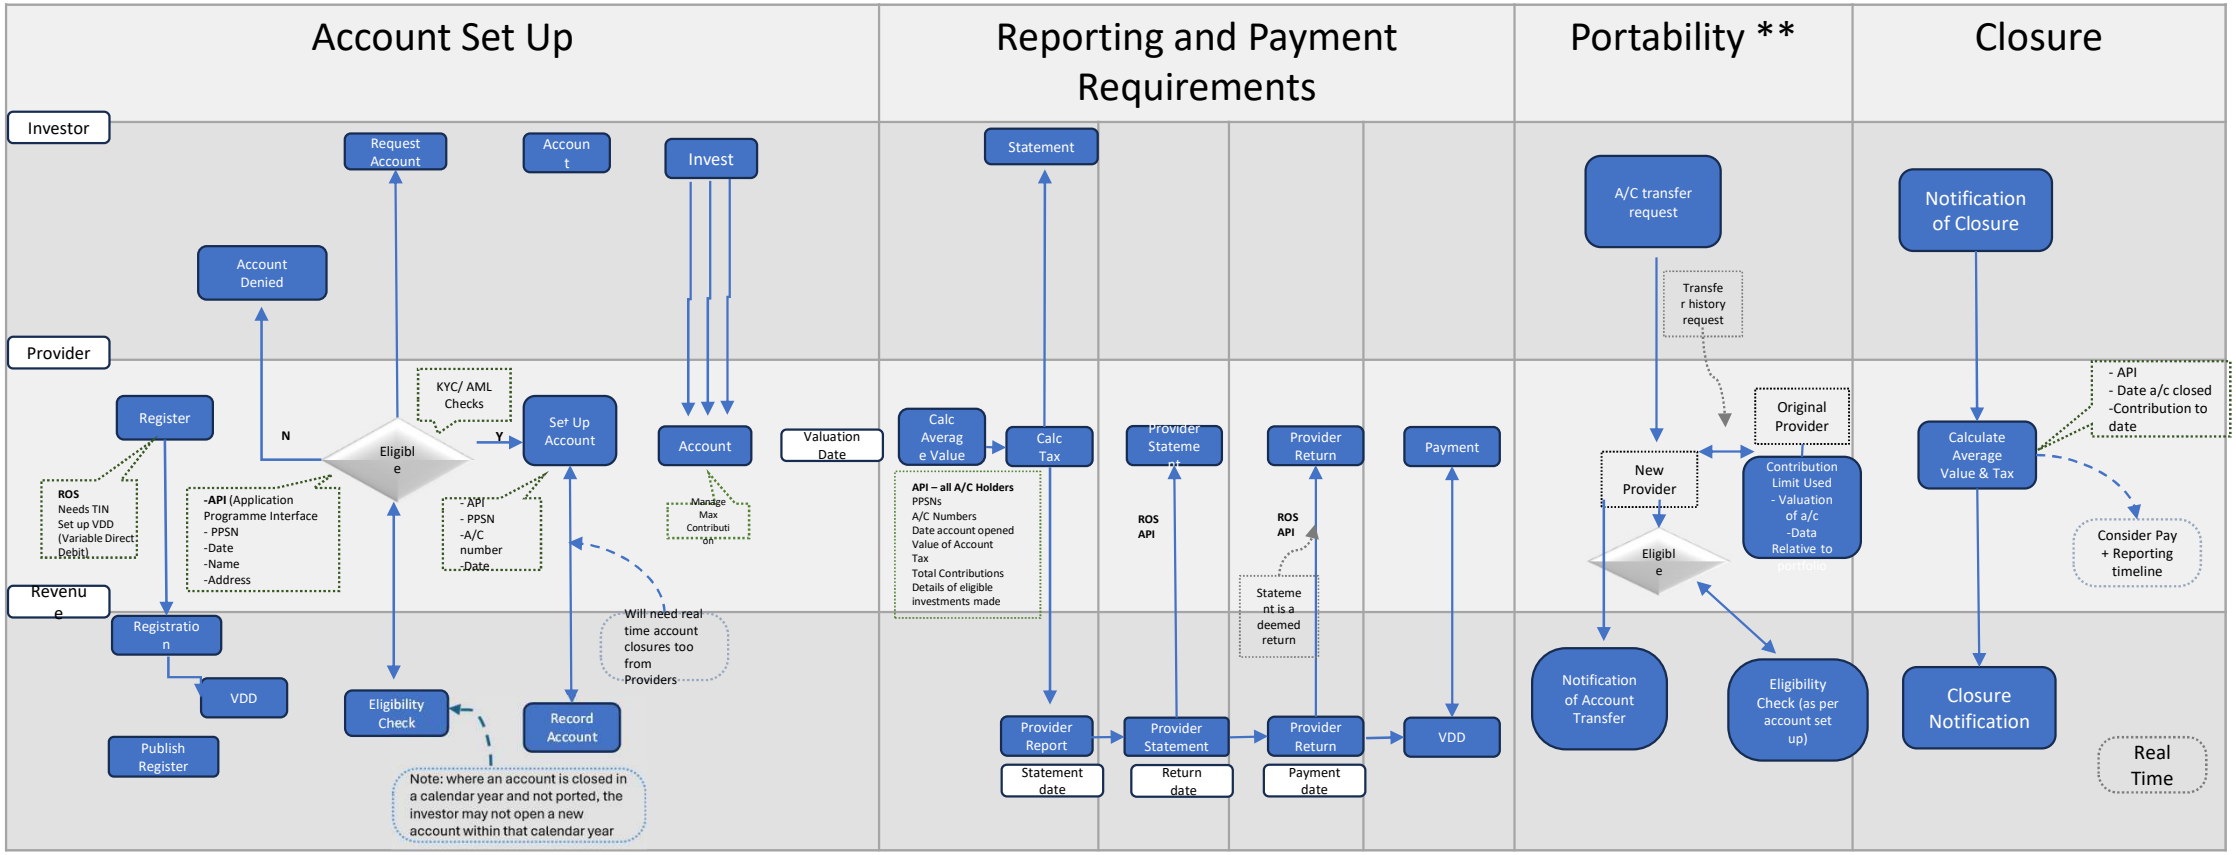

- convene 4 meetings of this Forum prior to 15.1.2027, and
- open a Public Interface Testing environment from the end of January 2027.

Estimated Timelines

Irish Tax and Customs

Communication Technologies

- **Web Service Protocol** - REST
- **Data Format** – JSON
- **HTTP Secure Channel** – HTTPS (TLS 1.1 or higher)
- **Authentication Mechanism** - HTTP Message Signatures(link to documentation). Client implementation guidelines will be published in due course but there is existing documentation around HTTP Message Signatures that can be found here. Revenue uses HTTP Message Signatures for all publicly available REST APIs

Specifications Definition

Irish Tax and Customs

The API schema is not available at this time as there are some outstanding questions to be answered. The constraints/rules are detailed below.

- **Unique Account Identifier -** alphanumeric with dashes (letters, numbers, and hyphens only), contains no spaces, and is limited to 60 characters. This explicitly includes support for standard 36-character UUID formats (e.g., 8-4-4-4-12 format), which will be treated as case-insensitive.

- **Eligibility -** Checks will include PPSN, Date of Birth, Name and Address.

- **Eligibility Response format -** HTTP response code only. No response body. Ensures compliance with GDPR's data minimisation principle verifying eligibility without exposing or transmitting underlying personal customer data.

- **Account Set Up -** Providers to supply investors PPSN, full name, address, date of birth and provider's unique account identifier.

Next steps

Revenue

- Schema Publication
- PIT(Public Interface Testing) Account Set Up for Providers
- PIT(Public Interface Testing) Opens to allow providers test Phase 1 services

Providers/Integrators

- Ported Accounts - Can providers share details of the interim phase which is entered when an account transitions from one provider to another? This will enable Revenue to determine what type of messaging, if any, Revenue might need to facilitate.

Questions

- Any questions?
